strategic performance consulting services

Kreative helps you move your enterprise forward with practical and effective solutions that generate bottom-line results. We look at your internal data, processes, and resources to develop strategies for long-term stability.

Led by credentialed management with extensive Program Management and Technical experience, the Kreative team offers the depth and breadth of experience to plan and design quality programs and standardize management disciplines and turn solutions into measurable results!

.....

Kreative employs the following strategic performance services to meet customer requirements and quantify customer satisfaction:

- **Quality Management Program**

We partner to integrate, implement and improve internal controls across organizations, programs, and/or projects by applying Best Practices. We use industry standards such as ISO, CMMI and PMBoK to establish internal policies, processes and procedures for service and product delivery to meet business your business needs.

- **Program and Portfolio Management**

We employ project management knowledge, processes, skills, tools, and techniques for project success. Our standards are based on Project Management Institute (PMI) Project Management Body of Knowledge (PMBoK). Since “one size does not fit all,” we perform analysis to determine project size and tailor management disciplines to enhance project success.

- **Business Intelligence and Analytics**

We work with you to identify key performance measures for business operations. We begin by reviewing historical data to obtain organizational understanding. As we progress through the process, we will partner to collect, analyze and provide reporting that shows trending on information that matters and is impactful.

- **Audit/Assessment Readiness**

Using our deep industry and technical expertise, we prepare organizations for audits and assessments for the following models: ISO 9001, ISO 20000, ISO 27000, CMMI Development and Services. We integrate practices whenever possible to maximize organizational assets. To prepare for the audit/assessment, the key for success is being organized. We also employ our Kreative A2RM tool to manage audit/assessment readiness to bring confidence to the organizations we support and the external auditor/appraiser.
